DETAILED ACTION

Allowable Subject Matter

Claims 1 – 36 are allowed.

The following is an examiner's statement of reasons for allowance:

Regarding claim 1, the cited prior art neither teach nor fairly suggest a microfluidic device comprising: a body structure comprising of at least one microchannel network and a plurality of ports disposed in the body structure, wherein at least one port is in fluid communication with at least one microchannel network, wherein the body structure is configured for use with a first direction means; and a manifold comprising of at least one manifold channel network and at least one aperture disposed in the manifold, wherein the at least one aperture is in fluid communication with at least one manifold channel in the manifold channel network, wherein the manifold is configured for use with a second fluid direction means, wherein the second fluid direction means is different from the first fluid direction means, and wherein the manifold is mated with the body structure whereby the at least one aperture or one or more manifold channels in the manifold channel network is in fluid communication with the at least one microchannel in the at least one microchannel network.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
